The Manager,
The Calgary Power Ltd.,
Calgary, Alberta.

Dear Sir:

On several occasions, when visiting our Indian Schools at Cardston, Hobbema and Cluny, I have remarked the high cost of light and power, so much so that I have asked the principals to see how they could come to cheaper terms with your Company. So far only the School at Cardston has obtained a slight reduction. Very recently at Cluny I noticed that the cost for light and power from Sept. to August 1937-38 was \$785.65 and from Sept. 1938 to August 1939 was \$884.75. Moreover in ^{Oct} Sept. 1937 the cost was \$67.60; in ^{Oct} Sept. 1938, \$73.15 and in Oct 1939, \$90.30. There seems to me to be something abnormal. If there is not a substantial reduction in prices, I shall be forced to install a power plant of our own as the grant of the government for the Indian schools is too small to waste any if the salaries of the employees must be paid. I have not on hand the figures for the Indian School of Hobbema, but its case is similar to that of Cluny. We have our own plant in some of the schools and generally we have had satisfaction from it and the cost is far lower. I do hope that something will be done and I would appreciate meeting someone of your Company to discuss this matter before acting.

With my sincere good wishes for a merry Xmas and a happy New Year,
Yours Respectfully,

H. Rothier O.M.I., provincial of Oblate Fathers.

H. Rocher O.M.I., Provincial of Oblate Fathers.

Rev. Fr. H. Routhier, O.M.I.
9916 - 110 Street,
Edmonton, Alberta.

Dear Sir:

We acknowledge receipt of your letter of December 15th in connection with electric service costs at the Indian Schools at Cardston, Hobbema and Cluny.

With regard to Cardston, we understand that there is no complaint on the basis of the present billing arrangements.

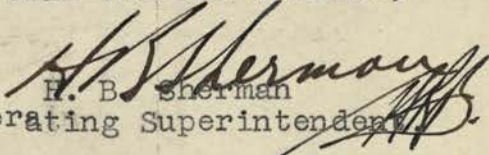

At Cluny, we have the situation under investigation and have written Father Riou advising him that a demand meter is being installed for the purpose of determining the actual power demand, and we expect to have what information is required within the next two or three weeks.

Our Mr. D. A. Hansen, at 205 McLeod Bldg., Edmonton, would be glad to discuss the Hobbema situation with you as this area comes under his supervision. We made some changes in the billing arrangement for this school last June and Mr. Hansen will be able to discuss this matter with you fully, at your convenience.

Wishing you the compliments of the season, we remain,

Yours truly,

R.P.Provincial O.M.I.

Edmonton Alberta

Cher Père:

Comme vous me l'avez demandé à Midnapore, j'ai initié le P.Gaudet aux livres de l'Ecole. Nous avons fait la balance pour le mois de Mars et aussi pour l'année. Nous vous en envoyons la copie. Je crois que le P.Gaudet pourra désormais tenir les livres.

Avec son aide, j'ai trouvé certains items sur lesquels je veux attirer votre attention. Certains ne sont pas sur le rapport ci-inclus.

Premièrement bien qu'il y ait une balance d'argent en banque, il y a un déficit réel d'au moins \$4, 610.88, comme suit:

Salaire du Principal du 1er Fev. 1938	à date: 2,600.00
Salaire du gardien de nuit	200.00
Emprunt des O.M.I. (Banque de Bassano)	500.00
Emprunt des RRSS de la Providence	500.00
Salaire des RRSS du 1er Jan. à date	495.00
Argent payé pour foin	268.31
Cash payments (divers) pour 3 mois	47.57

\$4,610.88

Comme nous n'avons pas d'argent liquide de l'école en main, on se sert de notre argent pour payer le nightwatchman et le foin, ainsi que les petites dépenses courantes, quitte à faire un cheque pour se rembourser.

ADEN DUNNAY

PROGRESS BON

Le montant pour le mois de Mars "House Equipment" comprend la balance sur le stocker : \$1,315.00 et une commande de toile de \$2,407.92.

Pour payer ce dernier item et obtenir un rabais de 10% on a fait un emprunt de \$500.00 des RRSS de la Providence et un autre des \$500.00 sur le compte des Oblats à Bassano.

Bien à vous en N.S. et M.I.

Jean Lessard O.M.I.

Dear Sir:-

Further to our letter of December 20th, 1939, which was in reply to your letter of the 15th ultimo, we have checked the Cluny situation further and we wish to state that we are prepared to reduce the billing demand from 10 to 8 K.W. effective January 12th and to use the demand meter in future for the purpose of establishing the monthly billing charges.

We enclose a copy of a letter addressed to Father Riou which explains this matter in detail.

Trusting that you will find that this arrangement will work out beneficially, we remain

Yours very truly,

H. B. Sherman

c.c. Mr. Hunter, Gleichen,
Rev. Fr. H. Routhier, 9916- 110th St. Edmonton.

January
Twenty-four
1940

Rev. Father Rion,
Crowfoot Indian Residential School,
Cluny, Alberta.

Dear Sir:-

With further reference to our letter to you of December 16th last in connection with the electric service accounts for the Crowfoot Residential School, we wish to advise as follows:

On December 21st a special meter was installed at the school, which registers both the energy consumption (in Kilowatt Hours) and the actual power load or demand in Kilowatts. Up to about January 18th the meter had shown a maximum demand of 8 Kilowatts.

You will understand that in our rate schedule the actual installed capacity in kilowatts (or horsepower) is taken as the basis for setting the Service Charge and determining the number of kilowatt hours in each separate rate block for the energy charge. The school has actually about 20 K.W. in appliances installed, not to mention the lighting installation. At the present time the account is being billed on the basis of 10 K.W. instead of the actual connected load; the rates being the standard Cluny schedule which is as follows:

Monthly Service Charge: First 1/2 K.W. of installed capacity - \$1.50
Each additional 1/4 K.W. of installed capacity - .40

Monthly Energy Charge: (in addition to Service Charge)

First	50 K.W.H.	per K.W. of Installed Capacity	@ 10¢	per K.W.H.
Next	150 "	" " " " " "	@ 5¢	" "
All over	200 "	" " " " " "	@ 2 1/2¢	" "

Discount: 10% of the even dollars for prompt payment.

On the basis of the 10 K.W. installed capacity rating, your monthly Service Charge amounts to \$16.70 and the energy consumed is charged as follows:

1000

First	500 K.W.H.	per month @ 10¢ per K.W.H.
Next	1500 "	" " @ 5¢ " "
All over	2000 "	" " @ 2½¢ " "

We are prepared to bill your account in future on the basis of the highest demand established by the demand meter, and to make this basis effective as from January 12th, 1940, which will cover the next current billing. It should be understood that the demand may exceed the present maximum of 8 K.W. in which event the account would thereafter be based on such higher demand, and so from time to time. We believe it is possible for you to exercise considerable control over the maximum demand by diversifying the use of the heavier capacity appliances. For instance, we might suggest that when the laundry equipment is being used, orders might be given that certain other motors or hot-plates, etc., be left idle. By making such adjustments in the use of the equipment, you not only keep the Service Charge down but also reduce the proportions of the Energy Blocks so that even though the same total number of Kilowatt Hours are used as in the past, there will be less charged at the 10¢ rate and a larger percentage at the lower follow-on rates. On an 8 K.W. demand, the billing works out as follows:

Service Charge - \$13.50 per month

Energy Charge

First	400 K.W.H.	per month @ 10¢ per K.W.H.
Next	1200 "	" " @ 5¢ " "
All Over	1600 "	" " @ 2½¢ " "

Discount - 10% of even dollars.

The main trouble which adversely affects your service costs is that your demand is out of proportion to the energy consumption. Many consumers have found that they can very conveniently diversify their work and even use smaller motors, etc., to such an extent that their unit costs are considerably reduced while they still continue to make full use of the service or even increase their energy consumption, if desired.

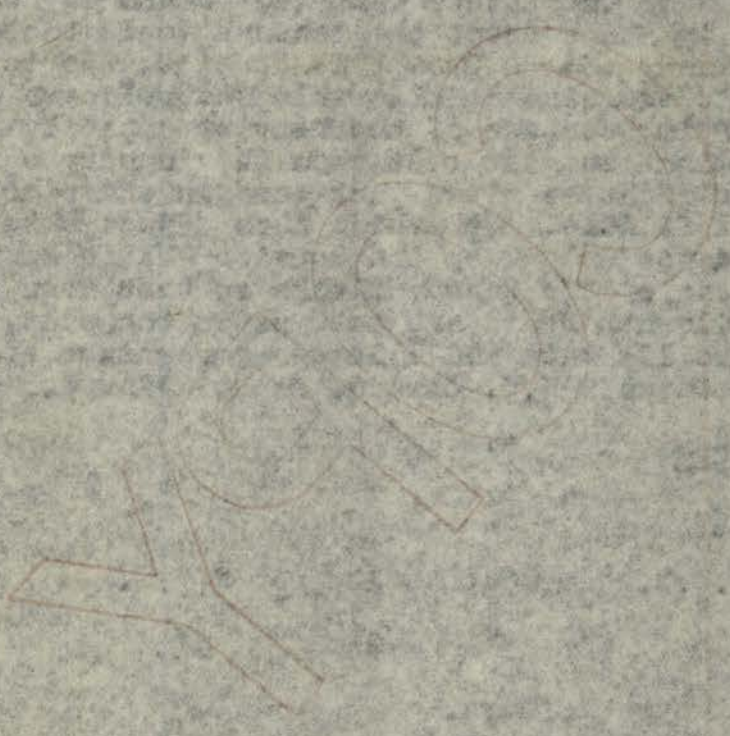

We would be glad to know if this new proposal will be acceptable to you.

Yours very truly,

H. B. Sherman
H. B. Sherman
Operating Superintendent

P.S. Please note that we are forwarding a copy of this letter to Rev. Fr. Routhier at Edmonton as he communicated with us some time ago in connection with this matter.

PROVINCIAL ARCHIVES OF ALBERTA
ACC. 71.220

February 7, 1940

Mr. H. B. Sherman,
Calgary Power Co., Ltd.,

Dear Sir:

I have yours of January 26th for which I thank you.

Although I appreciate your efforts to reduce somewhat both the service charge, bringing an annual reduction of \$38.40 and the Energy Charge of 10 cts a kw on 400 kw instead of 500 kw, still I feel that the 10 cts rate should not be extended to more than 200 kw. and then the 5 cts rate all the more so that there can be no question of benefitting of the lower rates for the monthly consumption of over 1600 kw. With the modified rates that you are offering we would be saving on the Energy charge \$5.00 a month, or taking into consideration the total Service Charge and Energy Charge a sum approximately \$100.00 a year. This is too little in my estimation. Father Riou, principal of the Crowfoot School tells me that at the Lacombe Home the rates are for lighting 5 cts a kw. and 5 cts for the motors. This seems to me so much more reasonable. I understand that the Lacombe Home is a charitable institution and I would not wish to be in any way an obstacle to your generosity if such is the case. In one of our Indian Schools in Sask. larger than that of Cluny the cost of electrical light and power this last year with our own generator was \$130.75. With a 10% depreciation in the value of the plant this cost would be increased by \$173.90. This would give a total cost of slightly over \$300.00 a year. The rates that I am suggesting would bring the cost of light and power to the neighborhood of \$500.00 a year instead of \$780.00.

wish to stress this, at least not for the present, as I understand that the contract was then different.

I hope that you will see your way to bring about the reductions that I am suggesting and remain

Yours truly

H. Routhier O.M.I.,
Provincial of the Oblates of Alta-Sask.

9916 - 110th St.,
Edmonton, Alta.

Dear Sir:

Your letter of the 7th ult., to hand, and in reply we wish to advise that we have given the contents considerable thought.

Our rates are based on a fair return on the invested capital and operating expenses, and for this reason we have a Service Charge and a sliding scale of prices for the energy blocks, so that the customer using a large amount of energy may do so at very little extra cost.

We have, in the past, been billing this service on 10 K.W. and we do not think this is too high, due to the fact that we found it necessary to remove the $7\frac{1}{2}$ K.W. transformer and install a 15 K.W., at the time you erected the new part of the building. As you have a total connected load of approximately 30 K.W. including power and lighting, it appears that 10 K.W. is a very low demand. However, as we have now installed an energy demand meter, the demand will register the total used at any one time, this, of course, may be controlled by yourselves using only the necessary lighting and appliances at a time when the larger ones are used, such as the laundry equipment. This demand meter does not register the total amount used unless that total is on for a period of 10 minutes, therefore, if 10 K.W. were in service for 5 minutes, the demand registered would be approximately 5 K.W., but if this amount were in continuous use for a period of 10 minutes, the full 10 K.W. would be registered on the meter.

This explanation will advise you that our previous service charge based on 10 K.W. is not our of reason, when one considers that at the present time the demand meter registers 8 K.W.

You remark in your letter that the Lacombe Home is billed on a 5¢ and 3¢ rate. This service is taken from the city

of Calgary Distribution System, and is billed by the City. This is hardly a fair comparison with the Cluny School, as it was not necessary for the City to build an expensive extension to serve the Lacombe Home.

You also refer in your letter to the cost of energy in one of your schools in Saskatchewan served by an individual unit. We cannot make any comparison in this regard as we do not know the size of the unit, the demand or energy consumption, or the size of motors used. We know, however, that a 24 hour service cannot be given with an individual unit as economically as our rates.

While the writer visited Father Riou at Cluny a short time ago, we discussed the advisability of installing a power service to separately serve the motors and power equipment, so as to gain advantage of lower energy rates. Father Riou was to inquire into the cost of this and it is quite possible to run a separate circuit for the motors in the laundry, the stoker and pump, which I believe would be an advantage, providing the stokers were operating the year around, but as it is the stoker only being operated a few months in the year, we doubt the advisability of a very large expenditure.

All our discussion has been around perhaps the largest account in the year and after the stoker has been installed for a full year, to compare these accounts with the previous year it may give a different picture.

Yours truly,

CALGARY POWER COMPANY, LIMITED.

Calgary Power Co., Ltd.,
Calgary, Alberta.

Dear Sir:

I have received yours of March 16th and thank you for same.

I must state very frankly that I am not satisfied. Your conditions are considerably less satisfactory than those we have for the Indian School at St. Paul which is served by the Canadian Utilities of Vegreville. Their Service Charge based on 10 H.P. is \$10.00; first 250 KWH at 7 cts; next 250 KWH at 6 cts; next 500 at 4 cts; excess at 2 cts. Even these conditions I consider slightly high. Unless other conditions are offered in the mean time, I shall ask my Provincial Counsel to approve the necessary expenditure for an installation of our own in July for our three Indian Schools in your jurisdiction.

Yours Truly,

H. Routhier O.M.I., provincial.

Edmonton, Alta.

Dear Sir:

Referring to our conversation of the 13th inst., regarding the account of the Crowfoot Indian School, Cluny.

You will recall that our discussion centred around the installation of a power service for some of the major appliances, such as the 5 H.P. motor in the laundry, 3 H.P. on the water pump and the 2 H.P. motor on the stoker, and as many other power appliances as can be connected economically.

Some time ago we recommended to Father Riou a separate power service for the major appliances, but to accomplish this it will be necessary to have some changes made in the wiring so as to meter the power separately. Father Riou has, I believe, had some quotations on the cost of making these changes, which in the opinion of the writer should not be very great, especially so when consideration is given to the possible saving that can be made in the monthly accounts.

For the purpose of giving you some idea as to how much saving might be effected by such a change, we have estimated the monthly requirements by using two services and we believe our estimate is conservative.

The attached tabulations will show how we have calculated the accounts, and also a comparison if two services are used, showing a net saving of \$172.37 per annum. The net amounts are shown in each case and the calculation is based on the consumption during the last twelve months.

As you have authorized the writer to interview Father Riou, and have him see that this change is made, I will do so the first time I am in Cluny, which I believe will be about

THE NEW RECORD

WEDNESDAY

CALGARY POWER COMPANY
LIMITED

Father H. Routhier.

- 2 -

September 16th, 1940.

September 24th.

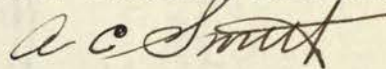

As soon as the necessary wiring changes are made, we will install Demand Energy Meters on both services and render accounts on the basis of the maximum demand. We believe these demands will not be any higher than the demands we have used in our calculations.

We are sending a copy of this letter to Father Riou for his information, and it will give him an opportunity to make a study of the situation before we pay him a visit.

We trust this will meet with your approval.

Yours truly,

CALGARY POWER COMPANY, LIMITED.

Oblates of Saskatchewan & Alberta,
9916 - 110th St.,
Edmonton, Alta.

Dear Sir:

Our letter to you under date of September 16th, 1940, advised you to install a separate power service for the motors in the Cluny Indian School, and that this service would take our standard power rate and reduce the lighting cost to some extent. This change has been made and the accounts recently rendered are for the first full month the power service has been in operation.

The following calculations will show how the accounts are made up. The last calculation shows the amount the account would have been under the old rate:

Present Rate

<u>Lighting</u>		<u>Power</u>	
3½ K.W. Ser. Chge.	\$ 6.30	5.6 H.P. Ser. Chge.	\$ 5.60
175 K.W.Hrs. @ 10¢	17.50	280 K.W.Hrs. @ 5¢	14.00
310 " @ 5¢	15.50	280 " @ 3 1/3	9.34
Gross	\$39.30	160 " @ 1 2/3	2.67
Discount	3.90	Gross	\$31.61
Net Account	\$35.40	Discount	3.10
		Net	\$28.51

There was a total of 1205 K.W.Hrs. consumed on both services and if this had have been rendered on the basis of the previous rate in effect, the account would be as follows:

8 K.W. Service Charge	\$ 13.50
400 K.W.Hrs. @ 10¢	40.00
805 " @ 5¢	40.25
Gross		\$ 93.75

Bien cher Père

J'ai reçu votre lettre du 21 septembre et je vous remercie cher Père des permissions accordées. Après avoir pris conseil de mes assistants, les Pères J. Rivin et A. Charron O. M. I., nous avons estimé la boutique seule à \$125.00 dollars.

Qu'il vous la bonn' cher Père de faire parvenir au Département des Affaires Indiennes à Ottawa, le plus tôt possible, si vous acceptez, cet estimé, car l'agent m'a dit que rien ne pouvait se faire avant que le Département ait accepté, et nous attendons cela pour commencer le plus tôt possible le cours de travaux manuels. Nous avons eu la rentrée des enfants, lundi dernier et tout est lancé enfin. Deux réservoirs de deux cents vingt gallons ont été installés par le Département en attendant que nous puissions en avoir un gros.

La va bien et j'aime cela; c'est bien ce que vous m'avez dit lorsque vous m'avez donné l'obédience.

Au revoir bien cher Père. Prenez soin de vous.

Votre fils dévoué en J. C. + M. I.

Cher petite face

Recevoir des chèques doit faire plaisir à un économe provincial. Alors pour vous faire sourire un peu et vous mettre de bonne humeur vous trouverez ci inclus deux chèques. Un de \$250.00 couvrant une partie des salaires du Principal et de son assistant. Nous ne pouvons envoyer le plein montant pour la bonne raison que nous avons reçu qu'une partie de l'octroi et nous ne savons pas quand nous aurons la balance. Il y a aussi un chèque de \$60.00 couvrant le salaire de votre humble serviteur comme curé de Chumy, salaire de deux mois.

J'espère que ces quelques lignes vous trouveront de bonne humeur. Le Père Adrien vous envoie ses saluts.

Votre père en J. L. + M. S.

MADE IN CANADA

de la paroisse et des Oblats - Il soit
que vous avez besoin de rapports car
le Pere Provincial - à ma connaissance
lui a déjà demandé 3 fois et vous le
lui avez rappelé vous-même, quelques
fois! Il faudrait venir le chercher
car vous attendrez peut-être encore
longtemps. On ne peut pas tout avoir.
Je crois bien que ce principe s'appli-
que à l'économiste provincial, aussi
bien qu'à nous...

De toute manière, ça va bien!

Il faut bien se serrer la ceinture quel-
ques fois pour payer les bêtises des
autres - mais ça tout de même.
Je commence à m'habituer à tout -
je finirai par être phlegmatique! Jui-
t'aurait crié!

Bonjour donc. Valdez bene et
surtout ne manquez pas de prier
pour les "combattants" de la plaine...
Saluts.

Crowfoot School

Crowfoot Indian Residential School,
Cluny, Alberta.

March 27, 1943.

Indian Affairs Branch,
Ottawa, Ontario.

Dear Sir,

Mr. G.H. Gooderham, our Indian agent has sent me a copy of your letter dated the 13th of this month concerning the new piggery at the Crowfoot Indian Residential School. Before replying to your letter, I have done what you suggested, namely, inquire from the Principal of the Duck Lake School concerning their piggery, of which you also possess information. Upon receipt of the letter from Father G.M. Latour, the Principal of the said School, I immediately went to our agent to show him the contents and to discuss the matter. The discussion was brief, because under our present situation, that is, living in the prairie where there is not a single pole or slab available, what has been done at the Duck Lake School is practically out of the question in our location. This I am sure, the Department is aware of.

The dimension we had given for our new piggery was 66 by 30, and the one in the Duck Lake 80 by 20 and another 76 by 16, and also another of 30 by 20. You can see that these are much larger than the one we ask for. We would be contented with such a type of piggery if the Department would purchase slabs, posts and logs, which Mr. Gooderham told me are not available. Last spring we bought some fence posts, "cedar posts" and as you know, we had to pay 23 cents a piece and we had a very hard time getting them. Transportation amounted to 3 cents a linear foot. I inquired about slabs, and I was told that they are not available around here, that we would have to get them from the mountains west of Banff, and that it would cost us much.

So every angle being considered and our present situation taken into consideration it would cost the Department just as much, if not more to build such a piggery here at the Crowfoot School.

I wish to tell you dear Sir, that if we were in the same kind of country as northern Saskatchewan, where logs, poles and slabs are plentiful, and this I know by experience, because my home town is Duck Lake, you may be sure that we would do everything we can to show the Department our good will in assisting it, in every way.

You seem to infer in your letter, I quote, "From our consideration of the plan suggested by the Principal of the Crowfoot School, we are under the impression that he contemplates raising hogs on a wholesale scale," I wish to point out regarding this, that first, until now we have been providing ourselves with our own meat; secondly, that we are trying our best to train the older pupils in all branches of farm work; thirdly, that we have also to find means to have a certain cash revenue from the farm, for this reason that the School is being paid for 68 pupils and we have 95 in School. We have 23 children for which we receive no assistance from the Department. This cannot be done with the per capita grant we receive. I am, dear Sir,

Yours truly,

R.

Je viens de recevoir votre lettre au sujet des messes que je vous ai envoyées. Où est l'erreur ?
Je vous ai envoyé un chèque de \$8.00 pour 16 messes à 50 sous.
De plus, je vous ai envoyé un bon de poste de \$52.00 pour 104 messes à 50 sous. Ce qui fait un montant de \$8.00 + \$52.00 = \$60.00; alors ce qui est un total de 120 messes à 50 sous.

J'en profite aussi pour vous dire que la police d'assurance F 4377 couvrant \$1000.00 sur la chapelle de la Bénédictine du Sacre est dû depuis le 23 février; la police d'assurance est de \$1.40 du cent, alors ça fait \$14.00. Bon voyage et bonne chance. Saluts fraternels.

Votre frère dévoué en J. P. + M. S.

Rev. Père O. Langerin O. M. I.

Cher Père

Je inclus cheque de \$600.00 comme contribution de l'École à la caisse provincial. Est-ce que le Père Provincial et vous-même avez signé les formes pour m'autoriser à signer seul les chèques pour l'école. C'est le Père A. Charon O. M. I. qui a demandé cela au Provincial lors de sa visite. La banque où nous faisons affaire pour ce qui regarde l'école, c'est la Royal Bank of Canada de Calgary. Quier, vous la bonté de voir à ceci le plus tôt possible s'il vous plaît. Je demeure votre fils dévoué

Le 13 Sept 143

Cluny. Alta.

Rev. Père O. Langens O. M. S.

Bien cher Père

Je vous remercie de votre patience à mon égard pour ce qui concerne le rapport financier du 1^{er} semestre de l'année 1943. J'espère que vous trouverez tout en ordre et selon vos desirs.

Quant à créditer à la Residence de Cluny le montant payé pour les assurances feu, je ne crois pas que ce soit bien nécessaire, car ce n'est pas \$4.00 de plus ou de moins à notre crédit qui fera bien fort dans la balance des contributions.

Nous avons une température magnifique pour la rentrée des récoltes. Ici à l'école tout est coupé et nous attendons la machine pour les battages bientôt. Depuis une semaine notre famille a beaucoup augmenté, nous avons déjà 93 livres de rentier et il y a encore une dizaine à venir. Nous en aurons plus d'une centaine cette année et je vous assure que n'étant payé par le Gouvernement que pour 68, ça va demander du tir ficelle.

Le Père Lebrun O. M. S. n'a pas encore fait son rapport. Il m'a écrit cependant pour m'avertir qu'il serait ici certainement pour prendre charge dimanche le 19 courant. Est-ce que vous envisagez ma compagnie ainsi que ma situation? La réception je crois ne sera pas compliquée. Adieu cher Père. Un souvenir pour moi de vos bonnes prières. Je demeure votre frère affectueux et reconnaissant in x^{to}

Chumy. Alta.

Rev. Père O. Langevin O. M. S.

Cher Père

Vous trouverez ci inclus un cheque de \$30.00, contribution à la caisse provinciale de la part du curé de Chumy. Au mois de juin, je vous ai envoyé \$50.00. Cela fait donc un total de \$80.00. Le Père A. Tritsault O. M. S. m'a demandé si le Père Lubin O. M. S. m'avait remis du salaire. Je lui ai répondu que non. Alors il m'a dit que le livre de compte de la paroisse indiquait que son prédécesseur avait pris \$80.00 de salaire.

Je profite de l'occasion cher père pour vous offrir mes vœux les plus sincères de Bonne + Heureuse Année. Je demanderai à l'Enfant de la crèche de bénir l'Économe Provincial ainsi que toutes ses entreprises.

F. Forestier O. M. S.

ACC. 71.220

In 1913, the Crowfoot Indian Residential School was built one mile from the town of Cluny and on the Blackfoot Reservation. The contract called for a wooden building, planned to accommodate some 60 pupils which the authorities of the School hoped to have in the near future.

This same building is still being used, but instead of 60 pupils, there are now 91 pupils on the school list, 36 of whom are boys and the rest, 55, are girls. Just now 55 girls are crowded in dormitories and halls which were made for 30.

For the last six years, the authorities have asked again and again to have the School enlarged. So far we have been refused, but the yearly increase of pupils, and the certain increase to come in the next seven years, as shown by the accompanying detailed report make it imperative, that the School be enlarged at the earliest possible time.

1936-37.	36 boys 55 girls	total -	91.	
1937-38.	37 boys 63 girls	total -	100.	Increase - 9
1938-39.	40 boys 62 girls	total -	102	Increase - 2
1939-40.	43 boys 62 girls	total -	105	Increase - 3
1940-42.	45 boys 72 girls	total -	117	Increase - 12
1941-42	56 boys 78 girls	total -	134	Increase - 17
1942-43	70 boys 78 girls	total -	148	Increase - 14
1943-44	78 boys 81 girls	total -	159	Increase - 11

Year 1937-38

1. Boys discharged in June 1937

Adam Solway born in January 1919
John Spring Chief born on 14th July 1919
Dan Wolf Leg born on 10th May 1919

2. There are no girls of age to be discharged.

3. Boys to enter school from Sept. 1937- to June 1938

Harry Good Eagle on 26 feb 1937 will be 7 years old.
Ubald Cecilius Good Eagle on 9 april
John Alphonse Bleigh 1937 on 23 oct will be
Walter Poor Eagle on May 28th 1938.....

4. Girls to enter School from Sep. 1937- to June 1938

Antonita Low Horn on 17 June 1937 will be 7 years old.
Felicia Mary Red Gun on 2 July 1937
Anne Victoire Chief Duck on 25 oct
Sarah Yellow Old Woman on May 5th 1938.....
Mary Adelia Cecilia Many Bears on 20 oct. 1937.....
Florence Little Chief on 17 oct will be 10 years old.
Berenice Black at school but not on the list.
Rosaline Big Snake on the 9 Jan 1938 will be 7 years old.

April 1st 1937

On the School List actually there are:

36 boys and
55 girls

a total of 91 pupils

June 30 1937

Three boys will be discharged
No girls will be discharged

which leaves a total of 88 pupils.

During 1937-1938

Four boys are to be admitted
Eight girls will be admitted
bringing
the number of boys to 37
the number of girls to 63

or a total of 100 pupils

Increase during 1937-1938 of 9 pupils.

Year 1938-39
